OffensEval 2020:

Post-submission phase

Christian, Kathryn, Johannes

Johannes:

- Model description write-up for competition (17th March)
- Describing model choices
- Consolidating hyperparameter selection process
    - Initial selection
    - Informed guesses
    - Fine-tuning
- F1 significance testing

Christian:

- Statistical analysis of models and their results
  - identify and visualize top features
- Ensure code is (mostly) human readable
  - including proper documentation
  - still ongoing

Thank you!
